**Rexon Radios,
31 Leeston Road,
Springston,
Christchurch 7616.**

Dear Owen,

Many thanks for once again coming on board as official suppliers of the match day communication radios that are used on Hawke's Bay Magpies match days at McLean Park, Napier, for the Mitre 10 Cup and Super Rugby games.

These radios are crucial to our match day operations as my staff, comprising mainly volunteers, are on duty at all points of the compass here at the park. These radios are also crucial in our communications regarding any evacuation procedures we may need to put in place if an emergency was to arise – thankfully this part has not been used yet!

The quality of the radios is outstanding and, unlike others, do not get interfered with by all the Sky TV equipment that is in close proximity on match days, so we are able to communicate with all staff at any time no matter where they are placed. The fact that they can be locked onto a channel also means they are 'foolproof'.

In appreciation,

Gary Macdonald,
Hawke's Bay Magpies Match Day Manager.
